Friends -

Attached are several documents, which were released today, regarding a portfolio-based conceptual alternative for BDCP:

- \* The portfolio-based conceptual alternative
- \* A cover letter from conservation and business groups
- \* A cover letter from urban water agencies
- \* A press release from conservation and business groups
- \* A fact sheet describing the benefits of this approach, including a summary of proposed investments.

In addition, here are links to:

\* A blog by Barry Nelson  
<[http://switchboard.nrdc.org/blogs/bnelson/coalition\\_releases\\_a\\_new\\_port\\_f.html](http://switchboard.nrdc.org/blogs/bnelson/coalition_releases_a_new_port_f.html)> explaining this approach in more detail.

\* A blog by Kate Poole  
<[http://switchboard.nrdc.org/blogs/kpoole/size\\_matters\\_but\\_the\\_whole\\_pac.html](http://switchboard.nrdc.org/blogs/kpoole/size_matters_but_the_whole_pac.html)> describing the environmental benefits of this approach.

We look forward to discussing this alternative with you soon.
